Atif Naz

Tech Lead and Senior Full-Stack Engineer | SaaS, AI and AWS

Lahore, Pakistan +92 345 1894583 atifnaz667@gmail.com linkedin.com/in/atif-naz atifnaz.vercel.app github.com/atifnaz667

Senior Software Engineer with 5.5+ years of experience building SaaS products for US and European clients. Leads a team of 10+ engineers and owns client delivery from scoping to release. Built Scaled Creator from scratch to 4,000+ paying subscribers on an event-driven AWS pipeline. Works across Node.js, Laravel, Next.js, PostgreSQL, AI agents and RAG.

EXPERIENCE

Senior Software Engineer (Tech Lead)

Techleadz, Lahore, Pakistan | **Jan 2024 – Present**

- Lead a team of 10+ developers across several SaaS products for US clients, and act as the main technical contact for scoping, estimates, demos and roadmap calls.
- Cut response times by 35% through Redis caching, query optimization and load balancing.
- Set up CI/CD with GitHub Actions and production error monitoring with Sentry.

Scaled Creator (scaledcreator.com), AI-powered affiliate automation SaaS

- Built the product from scratch as the sole engineer, then led the team that grew it to 4,000+ paying subscribers, 10,000+ sign-ups and 1M+ published posts.
- Designed the posting and webhook pipeline on AWS (API Gateway, SQS, Lambda) that publishes to Instagram, Facebook and YouTube within each platform's rate limits.
- Built bulk backfill jobs that process 7,000–8,000 historic videos per new user without slowing the live app.
- Shipped AI product matching from TikTok Shop to Amazon, comment-to-DM automation and scheduling; now building a mobile video editor.

DotSimple (dotsimple.io), social media management SaaS, Austria, 350+ B2B customers

- Built managed posting: publish once to every platform, scheduling, and best-time posting by user timezone.
- Built AI post generation with variations, plus integrations with Pipedrive CRM and Zapier.

Intelligent Chat (intelligentcontacts.com), real-time messaging platform

- Built direct and group messaging with presence, read receipts and file sharing (Node.js, Socket.io, Redis).

Senior Software Engineer

Econex Pvt Ltd, Rawalpindi, Pakistan | **Jan 2023 – Dec 2023**

- Led a full-stack team building an ERP system, a property management system and an e-commerce platform; ran sprint planning and shipped major releases on schedule.
- Introduced code review standards, Docker and CI/CD pipelines, reducing production bugs by 30%.

Full Stack Developer

Koncept Solutions, Rawalpindi, Pakistan | **Dec 2020 – Dec 2022**

- Built web applications for e-commerce, SaaS and business management clients with Laravel, Vue.js and React.
- Built REST APIs and integrated payment, shipping and messaging providers to automate client workflows.

SIDE PROJECT

AI Voice Support Agent (in progress)
Multi-tenant phone support agent that understands speech, answers from a knowledge base (RAG), checks orders, makes bookings and hands off to a human. Stack: Python, FastAPI, OpenAI, WebSockets, PostgreSQL

SKILLS

Leadership	Leading 10+ engineers, client communication, scoping and estimates, code review
Backend	Node.js, Laravel (PHP), FastAPI (Python), REST APIs, WebSockets
Cloud and DevOps	AWS (Lambda, SQS, API Gateway), Docker, GitHub Actions, Redis, Sentry
Frontend	Next.js, React, Vue.js, TypeScript, JavaScript
Data	PostgreSQL, MySQL, MongoDB
AI	AI agents (LangChain, LangGraph, CrewAI, MCP), RAG, OpenAI

EDUCATION

BS Software Engineering, Virtual University of Pakistan, CGPA 3.43 | **2018 – 2022**
